

1º Prize of the Contest of Ideas for the Arrangement and Ordering of the Riverside Area of Alcoutim.

1 - Objectives and Basic Principles of the Proposal

The objectives of the proposal are to create infrastructures to support tourism development, create leisure and recreational poles, pedestrian and cycle paths, revitalize the riparian gallery and define unique points of contemplation.

2 - Front Ribeirinha

It includes the following base program:

- A Port, key structure for development; capacity for 50 vessels
- Monumental Staircase, which opens the Villa to the river;
- "Forum" space, cultural events;
- River walk, restaurants, house of the arts and geriatric park

3 - Two Waters Park

It aimed at maintaining and enhancing the aesthetic / plastic aspects of the landscape (meeting of the Ribeira Cadavais with the Guadiana River) and strengthening its ecological importance.

- - **Square** - formal, built, reception and intensive space;
- - **Thematic Garden** - formal, scenic space, with allegorical representation (of the senses);
- - **Patamares Garden and Pedagogical Gardens** - the humanization and transformation of the landscape, cultural landscape - the knowledge
- - **Space of Transition** - nature duality "spontaneous and created", contained spaces, border, scale, surprise
